PREP TOOLS for FLOOR MACHINES

Fits 17" floor buffer machines (a/k/a FLOOR MAINTAINER, FLOOR MACHINE, SWING MACHINE)

DUST SKIRT \$139.00

Minimize dust, using this skirt that attaches around the base of floor buffers. Fits all 17-inch floor machines using a velcro strip attachment). Features a 1.25-inch inch dust port for vacuum hose connection.

REMOVAL TOOL, 16" DIAMABRUSH..... \$849.00

Diamond scraper tool, designed for removal of glue, mastic, and 2-3 mil coatings.
Includes 1.5" riser and standard clutch plate.

PREP TOOL, 16" DIAMABRUSH \$ 875.00

25 grit diamond disc shroud
Includes 1.5" riser and standard clutch plate

FLOOR MACHINE \$1,567.00

17" FLOOR BUFFER MACHINE
Hawk F0003-17XHD or similar

ANGLE GRINDER These may be used with fine grit "polishing" blades.

In general, use the following chart as rule of thumb to hide grind marks

18 grit- 20 mils minimum coat required

30 grit- 8-10 mils minimum coat required

>30 grit: these are classified as polishing blades, generally flat blades.

100 grit- 3 mils minimum coat (100 grit sandpaper meets this requirement)

ADDITIONAL TOOLS

Silica broadcaster- *for light manual broadcast of silica for non slip.*
