

PumaCOLOR COLOR GUIDE

* denotes ESD/Conductive colors

LRV=light reflection value

NOTE:

Some colors are premium colors for certain systems, with additional charge. Contact your pumaCRETE sales representative for more information.

PumaCRETE can match colors to meet your design. This includes custom color match to other industry color systems including RAL and Federal Standards.

Color approximates the appearance of the actual coating. Factors such as the type of product, degree of gloss, texture, size and shape of area, lighting, heat, or method of application may cause color variance. Performance of certain colors may be affected by specific exposure environments.

NOTE: For uniformity of color and gloss, some colors may require multiple coats. Contact pumaCRETE for color availability.
